Physical and Shipping Addresses

**Physical Address**
Dee and Charles Wyly Theatre  
2400 Flora Street  
Dallas, Texas 75201

The loading dock is located off of Ross Avenue between Leonard Street and Jack Evans Street. The truck dock is 4’-0” high with a door opening of 11’-11” H x 9’-0” W and accommodates one semi-trailer at a less than three degree decline from street level. A smaller van dock is also available on the north side of the building with a door opening of 8’-2” H x 10’-6” W. The van dock is equipped with a leveler.

**Shipping Address (all mail and deliveries)**
Margot and Bill Winspear Opera House  
2403 Flora Street  
Dallas, Texas 75201
Parking Information

**LONG TERM TRUCK PARKING**

State of Texas and City of Dallas traffic regulations prohibit overnight curbside parking. Clients are responsible for coordinating long term parking options. If a substantial wait time is expected, other staging areas may be necessary.

**GENERAL LOADING DOCK AND PARKING INFORMATION**

1. Dock doors will be closed immediately upon completion of pickup or delivery. If extended periods of the doors being open are required, security must be notified.

2. Reasonable and easy access pathways through the dock are to be maintained at all times. Access to the freight elevator, all stage doors, the forklift battery charger and cable passes in the dock must be available at all times.

3. Furniture dollies, hand trucks, flat bed carts and palette jacks that belong to the Center must be returned after use unless previously arranged with Center staff. Use is subject to availability.

4. Any major construction, staging, prep work, power requirements or running crew space required in the loading dock area must be coordinated with the Center two weeks before the event.

5. Any trash or construction debris in the loading dock and stage area is the responsibility of the client and should be removed daily - including sawdust, metal shavings, food and other trash.

6. The loading dock is a shared space where first in has priority. Cooperation with others is expected.
These rules are provided for AT&T Performing Arts Center user groups that utilize any stage, backstage or related production areas. Additional Center policies and rules may be adopted and enforced as necessary without prior notice.

1. Decorations or signs will not be placed in any rooms, hallways, lobbies or theatres in the Center buildings without the permission of management. Expenses for any damages incurred by the violation of this rule will be paid by the party responsible for the damage.

2. No sign or decoration is allowed on the building exterior or sidewalk unless approved in advance by the Operations Department or Event Services Department.

3. The Center will maintain its facilities for what it deems normal use. The lessee may be charged an additional cleaning fee for removal of decorations, excessive trash and debris, damage to or soiling of finishes, furnishings or equipment.

4. The presenter will not obstruct any portion of the entries, hallways, elevators, stairs or other egress paths from Center buildings including access to all building utilities.

5. The presenter will not permit smoking in any theatre or in control rooms at any time. Smoking on stage is only permitted as part of a performance, and only when management approval and a valid fire permit have been obtained in advance. Smoking is permitted in designated areas only.

6. Animals (other than service animals) will not be allowed in Center buildings for any reason other than for use in a production or related promotional event. This privilege must be secured through the Center Operations Department prior to load-in. If animals are used as part of a production it is the presenters’ responsibility for cleanup of all waste. A fee will be incurred if not adhered to.

7. If food and/or beverages are to be provided for visiting company personnel, receptions or related events, these services must be provided by the Center caterer. Not applicable for backstage.

8. The AT&T Performing Arts Center reserves the right to determine the uniformed or non-uniformed security personnel requirements for each event. Loaded firearms are prohibited in Center buildings, with the exception of on-duty peace officers, Center security and ‘stage use’ weapons, which have appropriate safety features and prior approval by the Operations Department.

9. The AT&T Performing Arts Center reserves the right to eject or cause to be ejected from the premises any person or persons violating the law or causing a disturbance that could result in a breach of the peace and/or damage to the venues of the Center. Neither the Center nor any of its employees shall be liable to the client for any damages that may be sustained by the client through the exercise of such rights by the Center.

10. Only doors equipped with a magnetic hold-open device may be propped open; all other doors must never be propped open.

11. The acquisition of access cards will not be granted without the user relinquishing state issued ID. Building master keys will not be given out to anyone without written notification from building management.

12. Contracting the building does not guarantee facility tours. All building tours must be arranged in advance by contacting Patron Services.
PRODUCTION REQUIREMENTS AND GUIDELINES

1. The visiting company will provide identification and/or complete lists of all persons to be allowed in the backstage area. This list must be provided at the beginning of the load-in and is subject to approval by the Operations Department. The Center reserves the right to restrict backstage access as needed. All persons must sign in and show identification at the stage door; visiting company should provide and wear credentials.

2. The house opens no fewer than 30 minutes prior to the scheduled show time. All set-up and sound checks must be completed by this time. The Operations Department will assist the visiting company in opening the house on time.

3. The Center house manager will verbally approve the start of a performance and the end of intermission.

4. The Production & Operations Department reserves the right to determine the final maximum sound level for any event in Center venues.

5. All preproduction coordination between the visiting company and the Center will be coordinated by the Operations Department. The presenter will make every effort to provide all paperwork regarding the technical needs of the event, a basic timeline and expectations of the house at least two weeks prior to the scheduled date.

6. The Center maintains security for all areas under its jurisdiction. No additional locks will be permitted on any door on the premises. It is recommended that valuables be collected by the visiting company’s stage manager prior to the performance and kept until the performance is completed. The Center assumes no responsibility for valuables or personal property left in dressing rooms.

7. Conditional use permits are REQUIRED for any use of flame, combustible materials, stage use firearms and pyrotechnic effects. All use of flame, smoke effects, firearms and pyrotechnics must be approved in advance by the Operations Department and the City of Dallas fire marshal, and when appropriate the State of Texas fire marshal. This includes the use of candles, incense, cigarettes, cigars, pipes, lighters, torches of any kind, flash paper, stage firearm weaponry etc. Client companies must be prepared to demonstrate effects to the authority having jurisdiction prior to approval. All associated costs are the responsibility of the presenter.

   The use of any special effects that may affect audience comfort or safety (such as the use of strobe lights) must be approved in advance by the Operations Department. The Center reserves the right to limit or prohibit the use of effects that may constitute a hazard to patrons, employees or the facilities.

   THE POSSESSION OF AND USE OF FIREARMS, OTHER THAN STAGE USE WEAPONS WHICH HAVE APPROPRIATE SAFETY FEATURES, IS PROHIBITED IN CENTER FACILITIES.

8. The lessee shall follow all fire code regulations regarding public performance, including the use of flame-resistant materials for scenic or design purposes, as well as keeping the area clear around fire doors. Certificates of fire retardancy may be requested.

9. The Production Department must approve any use of atmospheric effects (i.e. smoke, haze, fog or cracked oil). The Center reserves the right to ban confetti, rice and glitter from the premises at any time. Additional fees will be applied if not adhered to or if additional cleaning is required.

10. Location of all production equipment must be approved in advance by the Production Department.

11. The number and type of stage labor required for the event shall be determined after consulting with the Production Department.

12. Any damaged equipment must immediately be brought to the attention of Center staff.

13. Access to the house tools is limited to members of the Production staff. It is the responsibility of the presenter to bring all required tools for the event. Production staff may loan Center tools at their discretion.
Production Specifications

14. The AT&T Performing Arts Center will not be responsible for lost or damaged equipment provided by the presenter or the presenter’s outside vendors.

15. The visiting company shall provide a clean copy of the production script in advance of arrival for ADA needs.
STAGE REQUIREMENTS AND GUIDELINES

1. The visiting company will not make holes or drive nails, tacks, stage screws or similar articles in any part of the premises without approval by the Production Department.

2. Any changes to house rigging, lighting, audio or other equipment must be approved in advance by the Production Department.

3. Tying in power must be performed by trained and qualified personnel and must be arranged in advance with the Production Department.

4. Only Center staff may operate the following house equipment: lift system, tower controls and movement of the Proscenium Wall and Crash Wall with the Vortek automated fly system.

5. No scenery or other obstruction may cover any required exits or exit signs. No scenery or other obstruction may prevent the rolling fire door located stage right from sealing completely. Tenant/Client is responsible for any damage from obstructions, and any necessary modifications to accommodate.

6. The house main curtain should remain unobstructed and always be made available for use.

7. Man lifts, scissor lifts or forklifts are to be operated only by trained and qualified personnel. Non-outrigger and scissor lifts are not allowed on stage traps or cable troughs.

8. All access to galleries, catwalks, dimmer banks and sound rack rooms shall be approved or monitored by Production staff.

9. The Center must be notified if hot work (welding, grinding, etc) is to take place a minimum of 48 hours in advance of work being performed.

10. Hard hats shall be worn on deck and in the house any time work is being performed in grid areas at height or when working below a lift.

11. If line sets are to be used with personnel attached, such as focus tracks, the line set should be set at appropriate height, the Vortek interface disabled and the line set accessed by man lift with proper life safety equipment utilized. Trained and qualified Center staff must be present when accessing focus tracks. No other flying or lifting of personnel, including performers, on the Vortek system is allowed.
Production Specifications

STAGE SPECIFICATIONS

Potter Rose Performance Hall

Stage Floor Composition
“Stage-Lam” black composite flooring

Proscenium Dimensions
Height: 16'-6" to 26'-8" with adjustable header
Width: 42'-0" to 56'-8" with adjustable hard legs

Stage Dimensions: Proscenium
On Stage Right (centerline to SR gallery): 38'-6"
On Stage Left (centerline to SL gallery): 38'-6"
Wing Space Right (proscenium to SR wall): 16'-8" (torms in) 25'-11" (torms out)
Wing Space Left (proscenium to SL gallery): 16'-10" (torms in) 24'-2" (torms out)
Total Depth (plaster line to back wall): 48'-2"
Last Line Set (from plaster line): 38'-8"
Crash Wall (from plaster line): 41'-0"

Stage Dimensions: Thrust (House Lifts 1 and 2)
Stage Width: 24'-0"
Stage Depth (from plaster line into house): 27'-0"

Stage Dimensions: Flat Floor House and Main Stage
Total Width (east wall to west wall): 93'-0"
Stage Depth (north wall to south wall): 108'-5"

Elevations
Grid Height (stage deck to grid steel): 71'-8"
Deck to I-Beam: 79'-0"
Operating Gallery Height: 32'-0" (to pin rail) 28'-7" (to walkable surface)

Orchestra Pit
Full pit: 9’ L x 41’ W at 8’ below stage level
Capacity: 30 people
Stage trap area of 42'-6" x 15'-0" splitting center line just upstage of proscenium not pictured.

Both compressed air and water connections are available off-stage right.

Load limit for stage traps: 150# PSF
Production Specifications

CENTERLINE SECTION DIMENSIONS (STAGE RIGHT)
The Potter Rose Performance Hall is equipped with floor lifts which can be positioned for use in several configurations. These lifts are used as patron seating, orchestra pits and other functions. Below is a map of the floor lifts:

<table>
<thead>

RIGGING SPECIFICATIONS

Potter Rose Performance Hall

Note: The Vortek Automated Control System may only be operated by Center staff and crew members who have completed the Center’s Vortek Training

Fly System
- (44) 1.5” schedule 40 pipe, 63’-0” long w/ Vortek Pro Series 1200 lb. capacity hoists
- Line sets have a maximum speed of 3 ft./s
- Main curtain has a maximum speed of 3.5 ft./s
- Maximum Trim: 68’-4”, minimum trim varies

Chain Hoist System
- (8) 1T chain hoists w/ 80’ fall with a maximum speed of 16 ft./m
  - Power connector: HBL2426
  - Control connector: HBL2425
- (5) Chain hoist stands
- (1) Chain hoist control pickle
- (16) Fully independent circuits
  - (8) Over stage at grid
  - (8) At FOH catwalks

Miscellaneous Rigging Hardware/Equipment
- Loft blocks for pin rail/rope
- 25lb, 50lb & 100lb sandbags
- Belaying pins
- 4’ batten extensions
- 3’ and 6’ polyester roundslings
- 5’, 10’ and 30’ wire rope slings
- 5/16”, 3/8”, 1/2” and 5/8” shackles
- (2) Traveler tracks

Building load capacity information is available upon request. Please contact Operations Department in advance to confirm availability of all rigging hardware and equipment.

Cue Light System

(10) Circuit cue light system. System is available DSL, DSR, USL, USR, gallery rail, booth, and tech tables. Control of cue light system is available at Level 3 FOH mix position, SR SM call station and lighting booth.
Audio and Communication Specifications

Potter Rose Performance Hall

Consoles
(1) Yamaha M7CL-48 Digital Mixing Console with (3) Dante card each
(1) Yamaha LS9-32 Digital Mixer 64-channel Digital Mixing Console

Input Infrastructure
(1) Yamaha Rio1608-D 16-input / 8-output Stage Box with redundant Dante connections
   - Venue digital signal processing has redundant Dante inputs for every loudspeaker channel
(2) Yamaha Rio 3224-D2 32 input / 24 output Stage box with redundant Dante & Power connection.

Line Arrays
(24) d&b T10 Passive Loudspeaker, powered with d&b 10D Amplifiers
   - Up to (4) simultaneous line array hangs possible with (4) 1/2T 80’ chain motors

Front Fills
(6) d&b E4 Passive Loudspeaker, powered with d&b 10D Amplifiers

Subwoofers
(2) d&b B2-SUB Dual 18” Passive Subwoofer, powered with d&b D80 Amplifier

Seating Tower Delay Fills
(42) JBL Control 25 Passive Loudspeaker, powered with QSC CX168 Amplifiers, permanently mounted

Seating Tower Effects Fills
(42) JBL Control 23T Passive Loudspeaker, powered with QSC CX168 Amplifiers, permanently mounted

Microphones
(4) Shure UR4D+-H4 Band 2-channel Receiver
(4) Shure UR1-H4 Band Transmitter with Shure WL185 or Countryman B3 capsule
(8) Shure UR2-H4 Band Transmitter with Shure SM58 capsule
A full complement of microphones is available. Tripod and boom base stands are also available. Please contact Operations Department for microphone list.

Cable
5’, 10’, 20’, 50’ and 100’ microphone and 2-pole speaker cable available

Hearing Assistance
Listen LT 800FM System with (20) LR-400 receivers and earpiece

Communication
(2) Clear-com PS-704 Four-channel Power Supply (not accessible)
(1) Clear-Com RCS-2700 with (8) channels, (16) destinations with software matrix support
(1) Clear-Com RM-704 Four-channel Main Station with headset
(2) Clear-Com KB-702 Two-channel Base Station with headset
(8) Clear-Com RS-601 One-channel Beltpack with headset
(8) Clear-Com RS-602 Two-channel Beltpack with headset
Wired communication is available at the following locations:
  - Level 0 Dressing Rooms
  - Level 2 Dressing Rooms
  - Level 2 Technical Vaults
  - Level 3 Front of House Mix Position
  - Level 3A Front of House Mix Position
  - Level 4 Sound, Spot and Lighting Booths
Production Specifications

- Level 3 Potter Rose Stage Right SM Call Station  - Level 4 Catwalk and Gallery
- Level 3 Vortek Control  - Level 5 Hoist Rooms
- Level 3 Potter Rose Stage Left, Stage Right  - Level 6 Grid

Wireless Communication
(1) Radio Active Designs UV-1GBS 2-channel Wireless Base Station (not accessible)
(6) Radio Active Designs UV-1G 2-channel Wireless Belt Pack with headset

Paging and Program
(2) Biamp NPS-1 programmable digital paging microphones are available for paging to the following locations:
- Level 0 Dressing Rooms and Common Areas  - Level 3 Potter Rose House
- Level 1 Main Lobby  - Level 4 Potter Rose Control Booths
- Level 2 Dressing Rooms and Common Areas  - Level 9 Rehearsal Hall
- Level 3 Potter Rose Backstage Areas  - Level 9 Vocal Coaching Room
- Level 3 Potter Rose Stage  - Level 10 Rooftop Terrace
